EXPERIENCE

Software Developer at Seansoft Corporation | Makati City, Philippines　　　　　**Jan 2024 - Present**

- Collaborate closely with fellow engineers and a project manager to elevate a mineral management solution.
- Help migrate deprecated Angular-based codebase to efficient React components with hooks, optimizing performance.
- Implement innovative UI interfaces using React in conjunction with Bootstrap, enhancing user interaction and visual appeal.
- Develop robust APIs utilizing Django framework, ensuring seamless data flow and system functionality.
- Create unit tests for backend APIs, fortifying codebase reliability and stability.
- Play a vital role in upgrading the project dependencies, prioritizing security measures.
- Assist in review of pull requests, providing valuable insights and feedback to enhance code quality and maintainability.
- Help in testing and troubleshooting QA and Test environments, proactively identifying and resolving potential bugs to uphold product integrity and quality standards.

Full Stack Developer at Evelan GmbH | Hamburg, Germany | Remote (Contract)　　　　　**Aug 2023 - Dec 2023**

- Worked on a Sass product, an all-in-one management system, a comprehensive master data, company holdings, tasks, and document management system for corporate and holding structures.
- Created responsive React web components utilizing Chakra UI, ensuring an intuitive user interface.
- Developed backend API within Next.js using tRPC for integrated, high-performance functionality.
- Created unit tests using Jest to guarantee flawless functionality of core business logic.
- Designed and optimized PostgreSQL database schemas using Prisma for efficient data structure and accessibility.
- Implemented unified client-server validation using Zod, ensuring seamless data integrity across the system.
- Collaborated with designers, project managers, and other engineers to deliver high quality products for clients.
- Took charge of reviewing pull requests and refining onboarding procedures, enhancing team productivity and effectiveness.

Software Engineer at Beyonder Inc. | Makati City, Philippines　　　　　**Feb 2022 - Jul 2023**

- Developed robust, full-stack applications for diverse clients using React, React Native, Node.js, and Tailwind CSS.
- Implemented CI/CD pipelines using GitHub Actions for automated and efficient deployment workflows.
- Created prototypes using Figma to visualize design concepts and guide the development process.
- Successfully delivered multiple full-stack web and mobile applications, including Kokuban, スマホdeマップ, and Doko?
- Worked remotely and collaborated with teams of engineers to ensure project success.
- Led the front-end development team, mentoring junior developers and fostering a collaborative, high-achieving environment.

Full Stack Developer at Freelance | Muntinlupa City, Philippines　　　　　**Apr 2021 - Feb 2022**

- Collaborated with a team of three developers to deliver web applications for small businesses and individuals.
- Translated PSD designs into high-quality web pages, ensuring a seamless user experience.
- Created prototypes using Figma to guide the development process.

EDUCATION

Bachelor of Science in Information Technology, *STI College | Dean's Lister Awardee*　　　　　**July 2019 - July 2023**
